PHONE HOME

Technology can now let us talk to anyone in the world. Who her has a granny, nanny, aunty or other relative living in Ramsey Street, Summer Bay or somewhere else in Australia? One of the first toys a child will have is a portable phone ... with a ring tone that hits you between the eyes every time you touch a button. The trouble is that the real ones are so much more fun! CUT OFF

Imagine asking a friend, "How are you today?" and you get the reply, "Oh .. CUT OFF!" Quite shocking! Not even polite! It's like there is this

A division sign written over our lives. We're so independent that 1 in 2 marriages fail; our best friends are only friends at all for a year or so; less than 2% of people in the UK say they even know God, who loved us so much that he didn't just stay in heaven but showed his loved that even when we his enemies, he died for us. In fact he took the division sign in our lives and did this...
